CAREER OBJECTIVE

Aspiring engineer with a strong foundation in technical and problem-solving skills, seeking an opportunity to apply academic knowledge in a real-world environment. Eager to contribute to innovative projects, learn from industry professionals, and grow within a dynamic organization.

ACADEMIC PROJECTS

- **Event management website**   **Code**
  Built a full-stack event management website using **React**, featuring user authentication, registration/login, profile dashboard with edit functionality, customer query form, and **MongoDB** integration for data storage. Automated login/registration testing using **Selenium** (Java).

- **React based Personal Portfolio Website**   **Link**
  React and Tailwind CSS power this **responsive** portfolio featuring **Framer Motion** animations. It includes Home, Skills, Projects, Resume, and Contact sections, with **EmailJS** form handling and **Netlify** deployment for a performant mobile-first experience. Automated login/registration testing using **Selenium** (Java).

- **Food ordering webpage**   **Link**
  Designed and deployed a responsive food delivery landing webpage using **HTML**, **CSS**, **CSS animations**, and **Bootstrap icons**; hosted on GitHub Pages with a modern UI and smooth user experience.
